The Korean Democratic Lawyers' Association, the Committee for Peaceful Unification of the Fatherland, Korean National Peace Committee, Korean Committee for Afro-Asian Solidarity, General Federation of Trade Unions of Korea, Korean Peasants' Union, Korean Socialist Working Youth League, Korean Democratic Women's Union, General Federation of Literary and Art Unions of Korea, Korean Journalists' Union, Korean Democratic Scientists' Association and Korean Students' Committee on June 25 issued a jointly signed "Appeal to the World People—on the atrocities of the U.S. Army in South Korea." Here is the full text.

Peoples of all countries of the world who desire peace and champion the dignity and genuine freedom of man!

Already in April, 1961, we issued a statement addressed to you, peoples of all countries of the world, in condemnation of the cursed barbarities of the U.S. army occupying South Korea, which are totally incompatible with the conscience of mankind and the elementary norm of international law. This indictment won due support from the progressive mankind throughout the world, and all the people who treasure the dignity of the nation and sacred human rights pungently denounced the bestial barbarities of the aggressive U.S. imperialist army and strongly demanded its immediate withdrawal from South Korea.

This voice of justice is still ringing powerfully all over the globe.

The U.S. imperialist aggressors, however, turning a deaf ear to the just demand of the Koreans as well as the world people, are still occupying South Korea and, furthermore, their thrice-cursed barbarities against our compatriots are becoming wilder with each passing day.

While continuously denying the South Korean people all political rights and subjecting them to poverty, they are committing all the more wantonly diabolical atrocities, such as murder, violence, rape and plunder of properties against guiltless people.

Thus, even at this very moment, the blood of the peo-

ple unjustifiably killed or wounded is flowing over the land of South Korea already drenched with the blood of our compatriots, and there human lives and dignity are regarded with contempt and the sufferings and misfortunes of the popular masses have reached the extreme.

Such heinous criminal acts of the U.S. army beasts are intolerable provocations against the Korean people and the progressive mankind the world over.

The Korean Democratic Lawyers' Association which values the morality and reason of mankind and regards it as its lofty duty to defend the freedom and rights of man, together with the Committee for Peaceful Unification of the Fatherland, Korean National Peace Committee, Korean Committee for Afro-Asian Solidarity, General Federation of Trade Unions of Korea, Korean Peasants' Union, Socialist Working Youth League of Korea, Korean Democratic Women's Union, General Federation of Literary and Art Unions of Korea, Korean Journalists' Union, Korean Democratic Scientists' Association and Korean Students' Committee, have for some time carried out investigation into the criminal barbarities committed by the aggressive U.S. imperialist army in South Korea.

Given below is a part of the barbarities of the U.S. imperialist army published in an extremely curtailed manner by the South Korean press and news agencies as well as American papers since January 1961.

Condemning with surging national indignation the bestial crimes of the U.S. army that defy human imagination, we, in the name of the entire Korean people, once again expose and indict them before all the honest-minded people the world over.

I. HOMICIDAL ATROCITIES AGAINST THE SOUTH KOREAN PEOPLE

Man has the right to live in this world. But the aggressive U.S. imperialist troops have deprived the South Korean people of this right and they are enraptured at the sight of human blood.

The aggressive U.S. imperialist army is killing and wounding guiltless people everywhere in South Korea, employing all the more bestial means as the days go by.

They commit all kinds of atrocities: they shoot and stab the South Korean people just for incurring their displeasure and run over people deliberately by driving cars at random.

They murder South Korean people as the object of atomic-gun test firing and targets of shooting practice or even make sport of human lives to satisfy their curiosity.

II. OUTRAGES AGAINST SOUTH KOREAN WOMEN

The chastity of the women of our country has been likened to sturdy pine tree and bamboo from olden times.

But the aggressive U.S. imperialist army which is indulged in immorality and depravity makes no bones of committing such barbarities against South Korean women as would make even beasts blush, trampling underfoot and obliterating the beautiful manners and customs of our country that have been handed down from our ancestors.

The aggressive U.S. imperialist army, individually or collectively, violate or make a plaything of women on the highways in broad daylight. They break into Korean private houses and rape singly or by turns women, whoever may come in their way, whether old or yet a minor, and beat and kill countless Korean women who resist to their outrages.

III. NATIONAL CONTEMPT FOR AND VIOLENCE AGAINST THE SOUTH KOREAN PEOPLE

National contempt, insult and violence of the U.S. army against the South Korean people are endless.

Packs of hooligans are exercising unrestricted extraterritorial rights, openly claiming the right to decide the life and death of the South Korean people by themselves, the occupationists.

They lynch for no reason reporters who cover news, beat an engine driver changing locomotives on the ridiculous charge of causing too much shock, and make no scruple of perpetrating such bestial outrages as hanging peaceable inhabitants on electric poles and beating them for no reason, kicking pregnant women almost to death and setting military dogs on people.

IV. PLUNDER AND DESTRUCTION OF PROPERTIES OF THE SOUTH KOREAN PEOPLE

The aggressive U.S. imperialist army is a gang of robbers. All that is mine is mine and yours is also mine—this is the brigandish logic of the American imperialist occupationists.

The U.S. aggressive army, the descendants of pirates and gangsters, raid the houses and shops of the South Korean people to plunder their properties and goods singly and in a group.

They make it a common practice to wrest valuables from passers-by in broad daylight, set fire to and burn dwelling houses to the ground and carry away even safes. Robberies of all descriptions are committed almost every day.

Peoples of all countries of the world!

All the bestial outrages committed by the U.S. imperialist aggressors in South Korea stem from the inherent nature of U.S. imperialism and are deliberate criminal acts of the U.S. army which is filled with the misanthropic ideas.

The above-enumerated atrocities committed by the U.S. army in South Korea today furnish eloquent proof that they are the barbarians with no touch of human conscience, arch enemy to justice and humanity and the heinous aggressors.

The U.S. government and the U.S. Command of the occupation forces in South Korea come out with brazen vindications, ridiculously ranting about "chance occurrence" or "accidental mistake" in order to justify such bestial crimes of the aggressive U.S. imperialist army and cover up their villainous nature.

How can they prattle about "contingency" when they

have not spent a single day during the past 19 years since their illegal occupation of South Korea without committing brutal outrages and plunder against the Korean people in a systematic way and even by intellectual methods?

While committing all kinds of illegal and lawless outrages and despotism in South Korea today, exercising limitless extraterritoriality, the arrogant U.S. imperialist aggressors do not feel any pang of conscience or sense of responsibility at all, but rather they take it as their due right to act as they please.

They subject the Korean people to insult and maltreatment, make no scruple of killing them at random, and do not even hesitate to call the victims thieves whenever they kill innocent people.

The world people will remember that the aggressive U.S. imperialist army killed a three-year Korean toddler, accusing him of being a thief.

According to the brigandish "logic" of the U.S. imperialists, it is "self-defence" to throw barbed-wire entanglements in another's land and fire at passers-by at random, while any Korean who passes by the U.S. army barbed-wire fence is called a "thief" and deserves lynching till he vomits blood.

This perverted "logic" is applied and aggression and plunder are rife wherever the U.S. imperialists set foot.

National dignity and independence are infringed upon and human morality is trampled down wherever they go.

Where the bayonets of the U.S. army flash, innocent people are subjected to endless bloodshed.

And where the U.S. army is stationed, the people find

it hard to maintain security of life and property even for a moment.

The U.S. imperialists are the sworn enemy of the world peoples, the vandals destroying human civilization and morality and the common enemy of mankind, an enemy which is out to establish the order of wild beasts on the globe.

The sufferings and misfortunes of the people in South Korea have reached the extreme as a result of the colonial rule of U.S. imperialism.

With the aim of maintaining their crumbling colonial rule in South Korea, the U.S. imperialists are enforcing an unheard-of fascist dictatorship and are watching closely every movement of the people.

In South Korea even the call for the independent unification of the country, independence and self-reliance which are the unanimous aspirations of our nation, is regarded as serious "crimes," and such urgent demand for the right to existence and freedom is being suppressed by the bayonets.

How can we expect there any genuine law and order and even a trace of fundamental rights of man?

Owing to the predatory colonial rule of the U.S. imperialists, the South Korean national economy has gone totally bankrupt, South Korea has been turned into a land of chronic famine and the people's living has hit the bottom of destitution. In addition to millions of unemployed, in South Korea there are hundreds of thousands of orphans roaming about the streets, and the number of peasants leaving their farmland as well as foodless peasants is growing from year to year. And tragedies of self-destruction are everyday occurrence among the people who

have lost all means of livelihood.

The U.S. imperialist aggressors introduced into South Korea Yankee culture and the American way of life to stamp out our brilliant national culture, destroy our beautiful manners and customs and to trample upon ethics and morality, with the result that social evils become all the more rampant.

In order to whitewash their crimes of having caused all these tragic realities of South Korea, the U.S. imperialists are still trying in vain to disguise themselves as a "helper," whose real nature has long been exposed to the whole world.

Hence, as is known to the whole world, it is not accidental that the patriotic youth, students and other sections of the South Korean people have recently risen up in a mass struggle to oppose the colonial rule of U.S. imperialism over South Korea and to overthrow the puppet Pak Jung Hi clique, and are now waging a brave patriotic struggle, shouting "U.S., throw off your mask!"

The U.S. imperialist aggressors are intensifying their reckless war machinations to prop up their colonial rule which is faced with the danger of collapse in face of the resistance of the South Korean people.

They have shipped into South Korea large quantities of new-type weapons in gross violation of the Korean Armistice Agreement and continue to expand military bases and installations.

U.S. bellicose elements repeatedly make their appearance along the Military Demarcation Line to create war atmosphere by ranting about the non-existent "threat of communist aggression" and are conducting all sorts of

military exercises and perpetrating provocations against the northern part of the country in succession.

The occupation of South Korea by the U.S. imperialists is, indeed, the root cause of the political and economic chaos of South Korea and all the misfortunes and tribulations of the people, chief obstacle lying in the way of the unification of Korea on an independent basis and the cause menacing peace in the Far East and the world.

Unless the aggressive U.S. imperialist army is driven out of Korea, her unification and independence cannot be accomplished, the South Korean people cannot be freed from the present wretched plight in which they are made the target of the U.S. imperialists' guns, nor can a stable peace be maintained in the Far East.

The Korean people with a long history of 5,000 years and radiant traditions of victories in the struggle against foreign invaders, can never tolerate any aggression, plunder and murderous outrages committed by alien imperialists on their land.

Korea belongs to the Korean people.

The U.S. imperialists, the aggressor, must quit the southern half of our country at once.

Korea must be unified by peaceful means on democratic principles by the Koreans themselves without any interference from outside.

We are convinced that the world people, public organizations, and the parliaments and governments of all countries and the international organizations which defend human rights and prize peace and national independence will sternly condemn the beastly atrocities of the aggressive U.S. imperialist army occupying South

Korea and raise higher their voice of justice strongly demanding the withdrawal of the U.S. army from South Korea.
